Additional Notes: _____

Referring Physician _____ Signature _____ Date of Signature _____
(Please Print)

How do I prepare for the test?

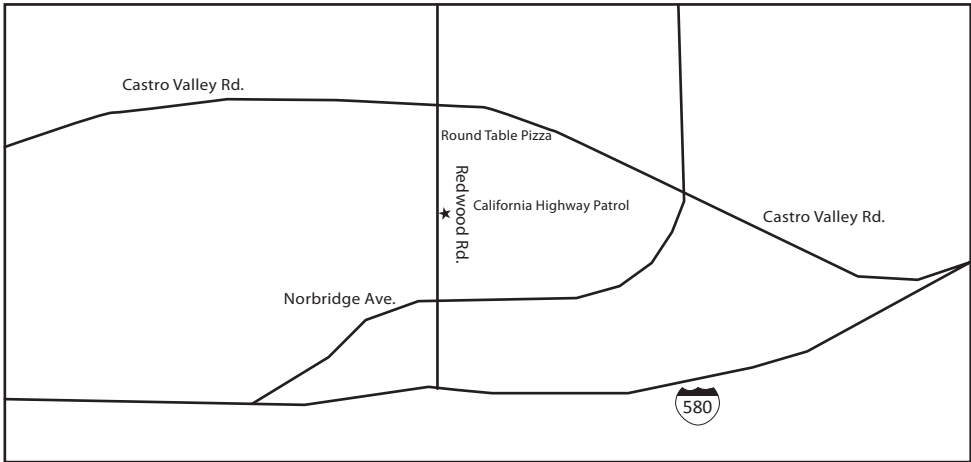

Before an MRI exam, eat normally and continue to take your usual medications, unless otherwise instructed.

Plan to arrive 30 minutes before your appointment time. We recommend you wear comfortable clothing, preferably with an elastic or drawstring waistband. (No metal or glitter, grommets, rivets or sequins) Belts, zippers, snaps and thread in clothing may contain metal that disturbs MRI signal. You may be asked to change into a gown. We recommend that you bring socks as the MRI suite tends to be cool.

We will ask you several questions before you enter the MRI exam room. You will be asked to remove all metallic objects such as jewelry (rings are OK), glasses, hairpins and dentures. A locker will be provided for your personal belongings. Please be sure to tell the technologist if you have metal implants, a cardiac pacemaker, permanent dental bridges, braces or other metal objects.

If you have any further questions, Please call.
